

'My World' Curriculum

Pupils at Silverdale are taught RE, PSHE and Careers as discrete subjects throughout KS1, KS2 and Year 7.

In Years 8, 9, 10 and 11, students face a range of challenges within their peer friendships and in the wider community; so to provide a safe space and to address anti-social and risk taking behaviours we take every opportunity to weave RSE, RE, PSHE and life choices relating to Careers into dynamic group discussions and access to guest speakers, external visits and focussed events.

School takes every cross curricular opportunity to immerse students in experiences outside of their comfort zone so that they become tolerant, useful and compassionate members of society.
